SUBJECT INDEX

- 987P (F6) fimbrial adhesin by cultured enterotoxigenic *Escherichia coli*, Enhanced expression of 118
- α - and β -adrenoceptors in the sheep urinary bladder 259
- Acidosis in goats, Biochemical alterations in serum and cerebrospinal fluid in experimental 208
- Actinobacillus pleuropneumoniae*, Endothelial cytotoxicity of 118
- Actinobacillus pleuropneumoniae* serotypes comparing different antigens and serological tests, Cross-reactivity between 308
- Activation of bovine peripheral blood macrophages in *Theileria sergenti*-infected calves 23
- Acute phase proteins in grass sickness (equine dysautonomia) 273
- Adenoma, Characterisation of complex karyotype changes in a canine thyroid 298
- Albendazole sulphoxide in sheep, goats and cattle, Chiral behaviour of the metabolite 134
- Alloxan-induced diabetes mellitus, Physiological and pathological influences on sheep blood plasma amine oxidase: effect of pregnancy and experimental 334
- Amine oxidase: effect of pregnancy and experimental alloxan-induced diabetes mellitus, Physiological and pathological influences on sheep blood plasma 334
- Ampicillin and pentobarbital in the course of subclinical fascioliasis in sheep, Pharmacokinetics of 75
- Amplification and differentiation of the DNA of an abortigenic (type 1) and a respiratory (type 4) strain of equine herpesvirus by the polymerase chain reaction 349
- Arthritis, Canine distemper viral antigens and antibodies in dogs with rheumatoid 64
- Assessment of pain associated with degenerative hip disorders in adult male turkeys 200
- Atrial natriuretic peptide in the dog with mitral regurgitation 86
- Aujeszky's disease viruses defective in glycoprotein g1 or gX, Immune response in pigs to 178
- Benimidazoles in vivo, Fecundity of anthelmintic resistant adult *Haemonchus contortus* after exposure to ivermectin or 247
- Bile after intraperitoneal immunisation, Origin of porcine 242
- Biochemical alterations in serum and cerebrospinal fluid in experimental acidosis in goats 208
- Blood pythons (*Python curtus*): a pharmacokinetic study, A new dosing style for gentamicin in 127
- Bubalus bubalis* calves following intramuscular administration, Pharmacokinetics and urinary excretion of gentamicin in 102
- Buccinator muscle in clinically normal adult adogs, Fibre type proportions of the 371
- Buparvaquone against *Theileria annulata* infection of cattle, Chemotherapeutic value of parvaquone and 204
- Bursal plial epithelium, Primary culture of chicken 352
- Busulphan, Sterilisation of avian embryos with 139
- C-terminal ANP (99-126), Immunoreactive N-terminal fragment of proatrial natriuretic peptide, ANP (1-98), in plasma of healthy dogs and dogs with impaired volume regulation: a comparison with the 264
- Canine distemper viral antigens and antibodies in dogs with rheumatoid arthritis 64
- Casein-degrading enzyme in equine inflammatory exudates, Late-stage mediators of the inflammatory response: Identification of interleukin-1 and a 14
- Characterisation of complex karyotype changes in a canine thyroid adenoma 298
- Chemotherapeutic value of parvaquone and buparvaquone against *Theileria annulata* infection of cattle 204
- Chiral behaviour of the metabolite albendazole sulphoxide in sheep, goats and cattle 134
- Cobalt deficiency in the pregnant ewe on reproductive performance and lamb viability, Effect of 319
- Common epithelial tumours of the ovary in cows 358
- Comparison between specific immunoperoxidase staining and bacteriological culture in the diagnosis of renal leptospirosis of pigs 229
- Creatinine as a renal function test in the dog, Plasma disappearance of 253
- Cross-reactivity between *Actinobacillus pleuropneumoniae* serotypes comparing different antigens and serological tests 308
- Cutaneous infection associated with *Staphylococcus hyicus* in cattle 374
- Cysticercosis, Identification of antigens for use in immunodiagnosis of *Taenia saginata* 162
- Deer: comparison of purified protein derivative and the specific protein MPB70 for in vitro diagnosis, Tuberculosis in domesticated red 279
- Depression of lymphocyte responses to phytohaemagglutinin in lambs experimentally infected with bovine respiratory syncytial virus 152
- Derivation of a DNA clone corresponding to the viral agent of sheep-associated malignant catarrhal fever 38
- Dermatophilus congolensis* by coagulase-negative antibiotic-producing staphylococci from pigs, In vitro and in vivo inhibition of 245
- Detection of foreign DNA in transgenic chicken embryos using the polymerase chain reaction 131

- Development of an enzyme-linked immunosorbent assay for the detection and measurement of the trypanocidal drug isometamidium chloride in cattle 185
- Diabetes mellitus or hypothyroidism, Fat absorption in dogs with 346
- Diabetes mellitus, Physiological and pathological influences on sheep blood plasma amine oxidase: effect of pregnancy and experimental alloxan-induced 334
- Diarrhoea, Incidence of common DNA sequences in bovine and porcine *Escherichia coli* strains causing 355
- Dictyocaulus viviparus* in sporangia of *Pilobolus* species, Direct measurement of dispersal of 29
- Dimethylselenide acute toxicosis in pigs: cardiovascular changes, Pathogenesis of sodium selenite and 269
- Direct measurement of dispersal of *Dictyocaulus viviparus* in sporangia of *Pilobolus* species 29
- Dirofilaria immitis* in the dog, Immunoperoxidase staining characteristics of 33
- Distribution of penicillin-G and spiramycin to tissue cages and subcutaneous tissue fluid in calves 301
- Dopamine on the cardiopulmonary effects of *Escherichia coli* endotoxin in anaesthetised horses, Effects of an infusion of 54
- Dysautonomia, Acute phase proteins in grass sickness (equine) 273
- Early detection of bovine leukosis virus DNA in infected sheep using the polymerase chain reaction 89
- Echinococcus granulosus*: antigenic proteins in oncospheres and on the surface of protoscoleces identified by serum antibodies from infected dogs 340
- Effect of a 350 Hz DC stunning current on evoked responses in the chicken's brain 250
- Effect of cobalt deficiency in the pregnant ewe on reproductive performance and lamb viability 319
- Effects of an infusion of dopamine on the cardiopulmonary effects of *Escherichia coli* endotoxin in anaesthetised horses 54
- Effects of an integrated control programme with ivermectin on growth, carcass composition and nematode infection of beef cattle in Argentina's western pampas 195
- Effects of isoproterenol infusion on the hindlimb metabolism of growing wether lambs 112
- Effects of recombinant human α A interferon in gnotobiotic calves challenged with respiratory syncytial virus 222
- Effects of vitamin or mineral deficiency on the morphology of medullary bone in laying hens 216
- Electromyography of some respiratory muscles in the horse 328
- Endothelial cytotoxicity of *Actinobacillus pleuropneumoniae* 18
- Enhanced expression of 987P (F6) fimbrial adhesin by cultured enterotoxigenic *Escherichia coli* 118
- Escherichia coli* endotoxin in anaesthetised horses, Effects of an infusion of dopamine on the cardiopulmonary effects of 54
- Escherichia coli*, Enhanced expression of 987P (F6) fimbrial adhesin by cultured enterotoxigenic 118
- Escherichia coli* strains causing diarrhoea, Incidence of common DNA sequences in bovine and porcine 355
- Evaluation of methods used for detecting *Streptococcus suis* type 2 in tonsils, and investigation of the carrier state in pigs 190
- Evidence of phenotypic dichotomy within an individual *Pasteurella multocida* type strain and among some haemorrhagic septicemia-causing field isolates 368
- Experimental reproduction of ovine vulvitis with bacteria of the haemophilus/histophilus group 81
- Fascioliasis in sheep, Pharmacokinetics of ampicillin and pentobarbital in the course of subclinical 75
- Fat absorption in dogs with diabetes mellitus or hypothyroidism 346
- Feather removal in *Gallus gallus* var *domesticus*, Physiological and behavioural responses associated with 95
- Fecundity of anthelmintic resistant adult *Haemonchus contortus* after exposure to ivermectin or benzimidazoles in vivo 247
- Fibre type proportions of the buccinator muscle in clinically normal adult dogs 371
- Fibronectin concentration in plasma of mares and neonatal foals 311
- Fimbrial adhesin by cultured enterotoxigenic *Escherichia coli*, Enhanced expression of 987P (F6) 118
- Fine structure of secondary granule inclusions in fowl heterophils after ruthenium tetroxide fixation 121
- Food restriction, Haematology and histopathology of seven-week-old broilers after early 290
- Fowlpox virus: pathogenicity and vaccination of day-old chickens via the aerosol route 362
- Gentamicin in blood pythons (*Python curtus*): a pharmacokinetic study, A new dosing style for 127
- Gentamicin in *Bubalus bubalis* calves following intramuscular administration, Pharmacokinetics and urinary excretion of 102
- German shepherd dogs, Relative IgA deficiency and small intestinal bacterial overgrowth in 106
- Glycoprotein gI or gX, Immune response in pigs to Aujeszky's disease viruses defective in 178
- Gram-negative endotoxin, Serum cortisol changes in heifers induced by lipid X: a monosaccharide precursor in the biosynthesis of 315
- Grass sickness (equine dysautonomia), Acute phase proteins in 273
- Haematology and histopathology of seven-week-old broilers after early food restriction 290
- Haemonchus contortus* after exposure to ivermectin or benzimidazoles in vivo, Fecundity of anthelmintic resistant adult 247
- Haemophilus/histophilus group, Experimental reproduction of ovine vulvitis with bacteria of the 81
- Haemorrhagic septicemia-causing field isolates, Evidence of phenotypic dichotomy within an individual *Pasteurella multocida* type strain and among some 368
- Hepatotoxic and nephrotoxic principles in *Terminalia oblongata* 170
- Hereditary high-potassium erythrocytes with high Na, K-ATPase activity in Japanese shiba dogs 123
- Herpesvirus by the polymerase chain reaction, Amplification and differentiation of the DNA of an abortigenic (type 1) and a respiratory (type 4) strain of equine 349
- Hindlimb metabolism of growing wether lambs, Effects of isoproterenol infusion on the 112

- Hip disorders in adult male turkeys, Assessment of pain associated with degenerative 200
- Hyperthyroidism, Pharmacokinetics of methimazole in normal cats and cats with 69
- Hypothyroidism, Fat absorption in dogs with diabetes mellitus or 346
- Identification of antigens for use in immunodiagnosis of *Taenia saginata* cysticercosis 162
- IgA deficiency and small intestinal bacterial overgrowth in German shepherd dogs, Relative 106
- Immune response in pigs to Aujeszky's disease viruses defective in glycoprotein g1 or gX 178
- Immune responses to intramammary infusion with soluble (ovalbumin) and particulate (*S. uberis*) antigens in the preparturient bovine udder 145
- Immunoperoxidase staining characteristics of *Dirofilaria immitis* in the dog 33
- Immunoreactive N-terminal fragment of proatrial natriuretic peptide, ANP (1-98), in plasma of healthy dogs and dogs with impaired volume regulation: a comparison with the C-terminal ANP (99-126) 264
- In vitro and in vivo inhibition of *Dermatophilus congolensis* by coagulase-negative antibiotic-producing staphylococci from pigs 245
- Incidence of common DNA sequences in bovine and porcine *Escherichia coli* strains causing diarrhoea 355
- Inflammatory response: identification of interleukin-1 and a casein-degrading enzyme in equine inflammatory exudates, Late-stage mediators of the 14
- Interferon in gnotobiotic calves challenged with respiratory syncytial virus, Effects of recombinant human α A 222
- Interferon- α , Suppression of lymphocyte blastogenesis by 376
- Interleukin-1 and a casein-degrading enzyme in equine inflammatory exudates, Late-stage mediators of the inflammatory response: Identification of 14
- Isolation of equine peripheral blood mononuclear cells using Percoll 116
- Isometamidium chloride in cattle, Development of an enzyme-linked immunosorbent assay for the detection and measurement of the trypanocidal drug 185
- Isometamidium in pigs: disposition kinetics, tissue residues and adverse reactions 6
- Isoproterenol infusion on the hindlimb metabolism of growing wether lambs, Effects of 112
- Ivermectin on growth, carcass composition and nematode infection of beef cattle in Argentina's western pampas, Effects of an integrated control programme with 195
- Ivermectin or benzimidazoles in vivo, Fecundity of anthelmintic resistant adult *Haemonchus contortus* after exposure to 247
- K-ATPase activity in Japanese shiba dogs, Hereditary high-potassium erythrocytes with high Na 123
- Karyotype changes in a canine thyroid adenoma, Characterisation of complex 298
- Late-stage mediators of the inflammatory response: identification of interleukin-1 and a casein-degrading enzyme in equine inflammatory exudates 14
- Lectin histochemistry in the small intestine of weaned and unweaned pigs, Serine protease immunohistochemistry and 1
- Leptospirosis of pigs, Comparison between specific immunoperoxidase staining and bacteriological culture in the diagnosis of renal 229
- Leukosis virus DNA in infected sheep using the polymerase chain reaction, Early detection of bovine 89
- Lipid X: a monosaccharide precursor in the biosynthesis of Gram-negative endotoxin, Serum cortisol changes in heifers induced by 315
- Lung arterial measurements in different strains of domestic fowl, Red cell size and various 233
- Lymphocyte blastogenesis by porcine interferon- α , Suppression of 376
- Malignant catarrhal fever, Derivation of a DNA clone corresponding to the viral agent of sheep-associated 38
- Medullary bone in laying hens, Effects of vitamin or mineral deficiency on the morphology of 216
- Methimazole in normal cats and cats with hyperthyroidism, Pharmacokinetics of 69
- Mitral regurgitation, Atrial natriuretic peptide in the dog with 86
- Mononuclear cells using Percoll, Isolation of equine peripheral blood 116
- MPB70 for in vitro diagnosis, Tuberculosis in domesticated red deer: comparison of purified protein derivative and the specific protein 279
- Mycobacterium bovis* in infected cattle analysed with six mycobacterial antigens in enzyme-linked immunosorbent assays, Specific antibody responses to 157
- N-terminal fragment of proatrial natriuretic peptide, ANP (1-98), in plasma of healthy dogs and dogs with impaired volume regulation: a comparison with the C-terminal ANP (99-126), Immunoreactive 264
- Na, K-ATPase activity in Japanese shiba dogs, Hereditary high-potassium erythrocytes with high 123
- Nematodirus battus* under an alternate grazing system of husbandry, Relative contribution of cattle to contamination of pasture with 211
- New dosing style for gentamicin in blood pythons (*Python curtus*): a pharmacokinetic study, A 127
- Origin of porcine bile after intraperitoneal immunisation 242
- Ovalbumin and particulate (*S. uberis*) antigens in the preparturient bovine udder, Immune responses to intramammary infusion with soluble 145
- Ovary in cows, Common epithelial tumours of the 358
- Pain associated with degenerative hip disorders in adult male turkeys, Assessment of 200
- Parvaquone and buparvaquone against *Theileria annulata* infection of cattle, Chemotherapeutic value of 204
- Pasteurella multocida* type strain and among some haemorrhagic septicemia-causing field isolates, Evidence of phenotypic dichotomy within an individual 368
- Pathogenesis of sodium selenite and dimethylselenide acute toxicosis in pigs: cardiovascular changes 269

- Penicillin-G and spiramycin to tissue cages and subcutaneous tissue fluid in calves, Distribution of 301
- Pentobarbital in the course of subclinical fascioliasis in sheep, Pharmacokinetics of ampicillin and 75
- Percoll, Isolation of equine peripheral blood mononuclear cells using 116
- Pharmacokinetics and urinary excretion of gentamicin in *Bubalus bubalis* calves following intramuscular administration 102
- Pharmacokinetics of ampicillin and pentobarbital in the course of subclinical fascioliasis in sheep 75
- Pharmacokinetics of methimazole in normal cats and cats with hyperthyroidism 69
- Physiological and behavioural responses associated with feather removal in *Gallus gallus* var *domesticus* 95
- Physiological and pathological influences on sheep blood plasma amine oxidase: effect of pregnancy and experimental alloxan-induced diabetes mellitus 334
- Phytohaemagglutinin in lambs experimentally infected with bovine respiratory syncytial virus, Depression of lymphocyte responses to 152
- Pilobolus* species, Direct measurement of dispersal of *Dictyocaulus viviparus* in sporangia of 29
- Plasma disappearance of creatinine as a renal function test in the dog 253
- Pleuropneumonia vaccine, Preliminary field test of lyophilised contagious caprine 240
- Polymerase chain reaction, Amplification and differentiation of the DNA of an abortigenic (type 1) and a respiratory (type 4) strain of equine herpesvirus by the 349
- Polymerase chain reaction, Detection of foreign DNA in transgenic chicken embryos using the 131
- Polymerase chain reaction, Early detection of bovine leukosis virus DNA in infected sheep using the 89
- Preliminary field test of lyophilised contagious caprine pleuropneumonia vaccine 240
- Primary culture of chicken bursal plical epithelium 352
- Proatrial natriuretic peptide, ANP (1-98), in plasma of healthy dogs and dogs with impaired volume regulation: a comparison with the C-terminal ANP (99-126), Immunoreactive N-terminal fragment of 264
- Pseudorabies virus infections in explants of porcine nasal mucosa 45
- Python curtus* a pharmacokinetic study, A new dosing style for gentamicin in blood pythons 127
- Reciprocal cellular and humoral immune responses in bovine tuberculosis 365
- Red cell size and various lung arterial measurements in different strains of domestic fowl 233
- Relative contribution of cattle to contamination of pasture with *Nematodirus battus* under an alternate grazing system of husbandry 211
- Relative IgA deficiency and small intestinal bacterial overgrowth in German shepherd dogs 106
- Renal function test in the dog, Plasma disappearance of creatinine as a 253
- Respiratory muscles in the horse, Electromyography of some 328
- Respiratory syncytial virus, Depression of lymphocyte responses to phytohaemagglutinin in lambs experimentally infected with bovine 152
- Respiratory syncytial virus, Effects of recombinant human α A interferon in gnotobiotic calves challenged with 222
- Ruthenium tetroxide fixation, Fine structure of secondary granule inclusions in fowl heterophils after 121
- Serine protease immunohistochemistry and lectin histochemistry in the small intestine of weaned and unweaned pigs 1
- Serum cortisol changes in heifers induced by lipid X: a monosaccharide precursor in the biosynthesis of Gram-negative endotoxin 315
- Shiba dogs, Hereditary high-potassium erythrocytes with high Na, K-ATPase activity in Japanese 123
- Small intestinal bacterial overgrowth in German shepherd dogs, Relative IgA deficiency and 106
- Small intestine of weaned and unweaned pigs, Serine protease immunohistochemistry and lectin histochemistry in the 1
- Sodium selenite and dimethylselenide acute toxicosis in pigs: cardiovascular changes, Pathogenesis of 269
- Specific antibody responses to *Mycobacterium bovis* in infected cattle analysed with six mycobacterial antigens in enzyme-linked immunosorbent assays 157
- Spiramycin to tissue cages and subcutaneous tissue fluid in calves, Distribution of penicillin-G and 301
- Staphylococcus hyicus* in cattle, Cutaneous infection associated with 374
- Sterilisation of avian embryos with busulphan 139
- Streptococcus suis* type 2 in tonsils, and investigation of the carrier state in pigs, Evaluation of methods used for detecting 190
- Streptococcus uberis* antigens in the preparturient bovine udder, Immune responses to intramammary infusion with soluble (ovalbumin) and particulate 145
- Stride analysis of horses exercising on a treadmill, Technique for continuous equine 360
- Stunning current on evoked responses in the chicken's brain, Effect of a 350 Hz DC 250
- Suppression of lymphocyte blastogenesis by porcine interferon- α 376
- Taenia saginata* cysticercosis, Identification of antigens for use in immunodiagnosis of 162
- Technique for continuous equine stride analysis of horses exercising on a treadmill 360
- Terminalla oblongata*, Hepatotoxic and nephrotoxic principles in 170
- Theileria annulata* infection of cattle, Chemotherapeutic value of parvaquone and buparvaquone against 204
- Theileria sergenti*-infected calves, Activation of bovine peripheral blood macrophages in 23
- Transgenic chicken embryos using the polymerase chain reaction, Detection of foreign DNA in 131
- Treponema hyodysenteriae*, Use of a whole chromosomal probe for identification of 286
- Trypanocidal drug isometamidium chloride in cattle, Development of an enzyme-linked immunosorbent assay for the detection and measurement of the 185
- Tuberculosis in domesticated red deer: comparison of purified protein derivative and the specific protein MPB70 for in vitro diagnosis 279

- Tuberculosis, Reciprocal cellular and humoral immune responses in bovine 365
- Tumours of the ovary in cows, Common epithelial 358
- Turkeys, Assessment of pain associated with degenerative hip disorders in adult male 200
- Udder, Immune responses to intramammary infusion with soluble (ovalbumin) and particulate (*S uberis*) antigens in the preparturient bovine udder 145
- Urinary bladder, α - and β -adrenoceptors in the sheep 259
- Use of a whole chromosomal probe for identification of *Treponema hyodysenteriae* 286
- Volume regulation: a comparison with the C-terminal ANP (99-126), Immunoreactive N-terminal fragment of pro-atrial natriuretic peptide, ANP (1-98), in plasma of healthy dogs and dogs with impaired 264
- Vulvitis with bacteria of the haemophilus/histophilus group, Experimental reproduction of ovine 81
